

Department of Civil Engineering

NEWSLETTER

January - June

2022

NOTE FROM THE HOD

Dear Students, Faculty,
and Alumni,

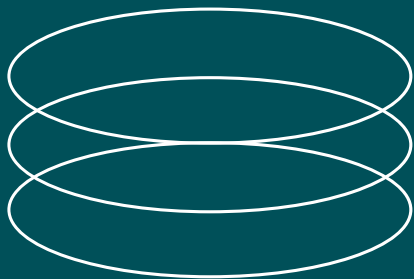

Welcome to this month's newsletter, where we highlight the achievements, events, and updates from the Civil Engineering Department. It has been an exciting time with numerous activities showcasing our commitment to excellence in education, research, and community engagement.

College of Engineering Trivandrum has received a patent for the invention of 'Cair Fibre - Latex Composite Sheets' (Patent# 409660 granted on 21-10-2022 wef 19-05-2018 by The Patent Office, Govt of India). The research work leading to the invention was carried out in the Department of Civil Engineering, College of Engineering Trivandrum. The sheets can be used as a separator in low-volume roads during construction between the soil subgrade and base course. The sheets will not only provide strength to the roads but also allow in-plane drainage thus directing water to the side drains. The work was carried out by Dr Jayasree P K (Professor, CET), Dr K Balan (Former Professor, CET and presently Vice Principal RIET), Sumesh C and Anand C J (Former PG students, CET).

FACULTY ACHIEVEMENTS

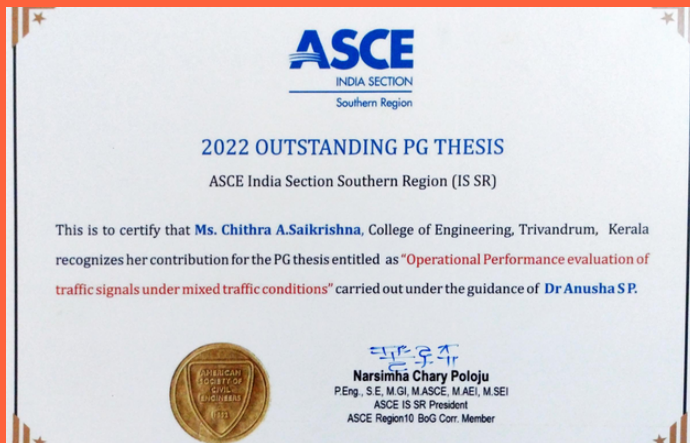

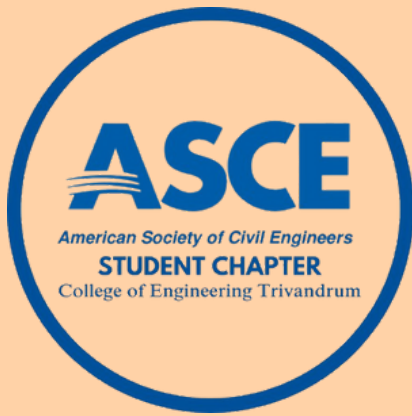

Dr. Jayasree P. K.

STUDENT ACHIEVEMENTS

Chithra A. Saikrishna, M. Tech. Student of Transportation Engineering (2022 Batch) received the Best P. G. student thesis award, 2022 sponsored by ASCE India Section Southern region award (cash prize Rs. 25,000-) for outstanding PG thesis, 2022 of the MTech student.

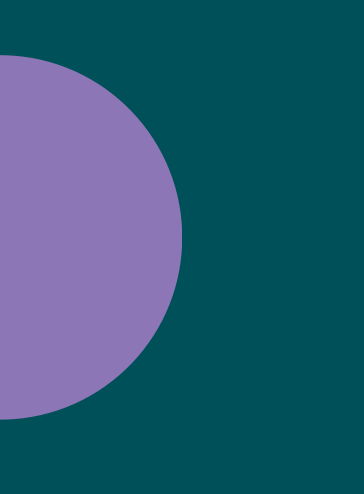

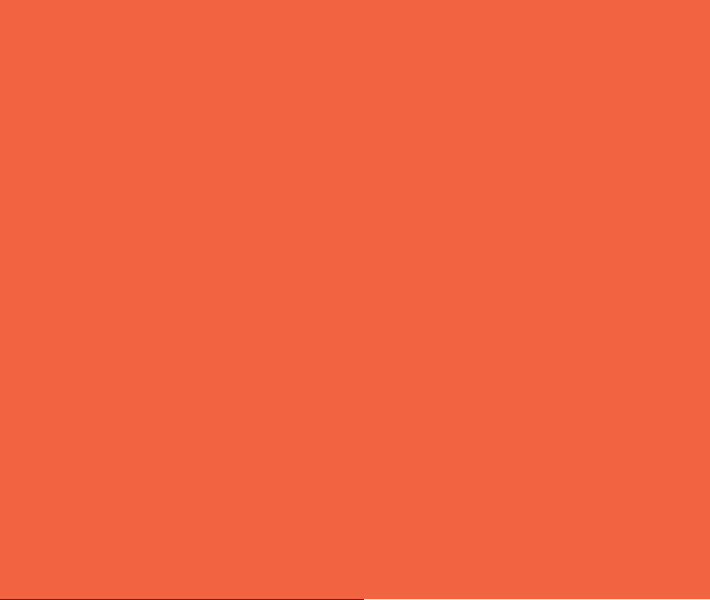

ASCE CET **ACTIVITIES**

Geotechnical and
material testing
workshop held on
April 29, 2022

Organised Popsicle
bridge competition
in DHRISHTI 22
