

IGS (Indian Geotechnical Society) CET Student Chapter organised a site visit to the Vizhinjam International Sea port, the first deep-water container transshipment port in India on 9.4.2024. The entire experience was insightful and memorable for the team of 48 students led by 3 faculty members from Department of Civil Engineering, College of Engineering Trivandrum

A technical talk on the topic 'Geo – disasters mitigation techniques' was organized by Department of Civil Engineering, College of Engineering Trivandrum and Indian Geotechnical Society CET Student Chapter on 26th October 2023. The session was handled by Mr. Manu K Sajan who is an alumnus of the department (2019 MTech GE) and presently a Research Scholar in the Department of Civil Engineering at NIT Suratkal, Karnataka. His research activities include Geo-disaster prevention and mitigation, dynamic soil-structure interaction, coastal geotechnics, renewable energy and ground improvement. He also highlighted the scope of research in this area and application of Internet of Things (IoT) in developing early warning system for earthquakes and tsunamis.
